September 22, 1972

Lt. General A.P. Clark
United States Air Force Academy
Colorado Springs, Colorado

Dear Sir:

I have an unusual request on behalf of my wife, which perhaps you could help resolve. Her son, by a previous marriage, Lieut. John C. Hauschildt, a 1962 graduate of the Academy, was killed in action some six years ago while serving as a pilot in Viet Nam. His remains, which were found some six months or so later after he was declared "missing in action" were returned to the states for burial at the Acadeny Cemetery.

My wife and I are planning to be in Colorado on Nov. 23 thru Nov. 25th to see the Academy. She at this time would like very much to visit her son's grave, even though it will be a very difficult time for her. Could you please advise me what arrangements might be made in advance, so that we could be at the cemetery in a rather private way.

I realize that you receive many requests from families having similar tragedies, but any assistance you can arrange would be greatly appreciated toward making our visit no more painful than necessary.

Sincerely yours,

Robert H. Wilkin
