Subject: Re: Lt David Wax USAFA 1963

Hi Lani,
Thanks for checking for me. For your records according to the DOD listing Lt Wax's remains were returned to the US 4/1993 and positively identified in 8/1993.

WARRANT ARTICLES (cont'd)

Town Clerk Patrick Ward commented that the law mandates him to post elections under Chapter 39, section 10. He asked that he be the designated person in this instance because it would meet the requirements of the statute.

Article 27 –

Maureen Carter, Administrative Assistant to Veterans' Director Richard Bargfrede, appeared to speak to this article. She noted that this will be the fifteenth memorial square to be dedicated. Lt. David Wax graduated from Brookline High School in 1959, and then went on to graduate from the Air Force Academy and was commissioned a lieutenant in the Air Force. He was sent to Vietnam in the summer of 1965 and on December 10, 1965, his plane was shot down and all five crewmen perished. His body was never recovered until 28 years later.

Ms. Carter introduced Mike Moreno a classmate of Lt. Wax. Mr. Moreno told the Board that he and a few classmates of Lt. Wax contacted the family to see if they would be interested in having a square dedicated to David. The family lived on Evans Road, so the intersection of Beacon and Washington Streets is most appropriate.

The Board unanimously recommends FAVORABLE ACTION on Article 27.

BOARDS AND COMMISSIONS

The following candidates for appointment to Boards and Commissions appeared for interview:

Conservation Commission
Gail McClelland Fenton

Solid Waste Advisory Board
Michele Portman

Conservation Commission

Gail McClelland Fenton appeared for an interview for appointment to the Conservation Commission. She told the Board that she has been a resident of the town for the past 22 years and is committed to service to her town. She is an independent naturalist and free-lance writer with long-term ties with the Mass. Audubon Society. She teaches at and writes for the Broadmoor Wildlife Sanctuary. She told the Board that she knows Brookline's conservation lands and knows which plants and animals are present, which have increased and which have decreased over the past two decades. She also knows what is missing. Her expertise allows her to recognize the signs of use and misuse and to understand how wetlands work and to know the issues of land protection.
