

# *TO HONOR*

## **GENERAL CURTIS E. LE MAY CHIEF OF STAFF. U.S. AIR FORCE**

When a colonel in 1942, Curtis LeMay trained the 305th Bomb Group (H), and led it overseas to England. In aerial combat over Europe, he personally led the most hazardous missions. Through his courage and innovative genius, he produced the means for victory in the air through precision bombing with the least loss of crews. He was a peerless navigator, a superb pilot, and a dauntless, compassionate leader.
