

TO HONOR

ARNOLD A. WRIGHT

Arnold was an admirer of the late Ewell R. McCright, a former POW in World War II. Arnold produced a fine book from almost illegible records that McCright collected on his comrades at Stalag Luft III. This book assembled the essential details of the last mission of about 2000 of these men and enabled many of them to find old comrades and to fill vital records gaps---a contribution of inestimable value to these men.
