TO HONOR

HOPE MAY SCHWANK

1939-2017

Hope May Schwank was a charming and gifted woman. She was married for fifty-five years to Colonel Jock Schwank, USAFA '60, and together they shared the adventures and trials of frequent moves to far-flung places. She handled the challenges of military life with grace while loyally supporting her husband, raising two sons, mentoring the wives of junior officers, and tending to countless birds, fish, rabbits, guinea pigs, teddy bears, and elf villages. Highly creative, she was an artist and multi-media craftswoman who could transform commonplace objects made of wood, leather, and stone into "objets d'art" that served to enlarge the lives of many others. Her legacy lives on in the work of her talented hands and fertile imagination. But it shines brightest in the memories of those who loved her most.

A gracious lady, loving wife, and devoted mother who touched countless lives for good
