Knowledge*

TO HONOR

JIM HEAD

BRIGADIER GENERAL, UNITED STATES AIR FORCE (RETIRED)

Jim has been an amazing volunteer for many of Colorado's most influential charitable organizations for the past 20 years since his retirement, including longtime service as a Director, Secretary, and Vice President of The Friends. During his Friends' tenure, Jim significantly improved The Friends' business practices as we transitioned to a new business manager. In addition, he clarified duties of the Executive Committee, identified the need for and wrote new procedures, and greatly improved our contracting processes. Jim has also actively worked to acquire valuable additions to the McDermott Library's Special Collections. As an author, Jim was an effective advocate for lesser known but important local subjects, co-authoring definitive books on the History of the Permanent Professors of the USAF Academy and Hiking the USAF Academy. A gentleman and scholar who enjoys helping others before himself, we will miss him and his leadership as he relocates to Florida.

Incredible comrade-in-arms who made a difference every day. Thanks for your service!
